## More Strong

The additional third layer makes it more strong like a rock, Monocoque structure with bolder ribs support stability and reduce bulging when the tank is full.

## Hygienic

Food Grade LLDPE material ensures that the water does not get contaminated when in contact with the tank.

## Keeps water fresh

Supreme airtight threaded lid ensures that the content of tank is from dust and flies.

## Uniform Wall Thickness

The Latest Evolution of Roto Mould Technology goes a step ahead of its predecessors. it re-examines the frame structure with consistent Wall Thickness and thereby allows even more effective balanced weight of the whole tank.

## Plumber friendly

Multi outlet options along with inlet and overflow configurations help plumbers in easy connections.

## Adaptability

Radical exteriors are complimented by the intelligent design which optimizes superior performance and ensures adaptability to various conditions.

Specification of Vertical Roto Mould Water Tank

Capacity (Liters)	Width (inch)	Height (inch)	Mainhole (inch)
10000	88"	113"	18"
5000	77"	81"	18"
3000	61"	72"	18"
2000	54"	63"	18"
1500	50"	57"	16"
1000	43"	50"	16"
750	40"	42"	16"
500	35"	39"	16"
300	28"	32"	16"

Specification of Horizontal Loft Water Tank

Capacity (Liters)	Length (inch)	Width (inch)	Height (inch)	Mainhole (inch)
1000	62.5"	44"	23"	12"
750	62"	39"	19"	12"
600	57"	41"	16"	12"
500	57.5"	36"	16"	12"
400	49"	37"	14"	12"
300	49"	32"	14"	12"
200	36"	27"	12"	12"

Happy to announce the launch of
